The development of a multiplex assay for the detection and genotyping of *Neisseria gonorrhoeae* by combining the polymerase chain reaction (PCR) and restriction fragment length polymorphism (RFLP). A multiplex PCR and restriction fragment length polymorphism (RFLP) assay has been developed for the rapid detection and genotyping of *Neisseria gonorrhoeae*. The application of the assay is demonstrated by identifying the presence and strain type of gonococci in a clinical specimen. As a bonus, one and two-game passes are available to summer camp participants. All camp participants will receive an Activities & Camp Manual and Directions to Explorers Hut (Only available to summer camp participants). \*\* Autumn August 22 - 26, 2017 Autumn is a month long "spring break" for Explorers, lasting from August 22 - 26, 2017. We'll be traveling throughout the Ottawa region, visiting local parks and historic sites and enjoying a few short day trips. Autumn Camp Summary: Camps for nine children will be run concurrently with another camp, resulting in a maximum of three co-counselors per camp. There will be an option for children to experience a "Day Camp" day - the Activity schedule will be somewhat less structured than the main camp structure. Children in each of the five camps can choose to participate in either a Day Camp or a Main Camp - every camp will have at least one Day Camp component. c6a93da74d
