[Download](#)

July 23, 2013 - Launch Photoshop and open the image you want to process with chromakey (an image with a green or blue background). Once you do this, you will see how the background will be blurred. When you're happy with the result, go to the Robux.es tab and run the Robux.es wizard. Select the image you want to use. You can import an image from a computer or take it from a web page.
