I am using Autocad 2020 and my ipad is the Air 2 A: I'd say you can't, the values of the constants are not readily available in runtime, only in pre-compiled binaries. Initial Experience with Laparoscopic-Assisted Duodenal-jejunal-Ileal Bypass (LA-DJI) for Morbid Obesity. Laparoscopic-assisted duodenal-jejunal-ileal bypass (LA-DJI) is a new technique with growing interest for the treatment of morbid obesity. We report the initial experience of our center in LA-DJI. We performed a prospective cohort of 18 LA-DJI procedures from 2012 to 2016. All patients underwent a bariatric procedure with LA-DJI. Preoperative and follow-up data were prospectively registered. The median operation time was 480 minutes. The median intraoperative blood loss was 250 mL. Median postoperative stay was 6 days. Median excess weight loss after 3 years was 50% (IQR 29-69%). Two patients experienced a serious adverse event during the hospital stay. Two patients had respiratory and circulatory failure and were transferred to intensive care. The rest of the patients were successfully managed conservatively. The median postoperative stay was 6 days (IQR 4-10). All patients had a gastroscopy for the assessment of pouch-enteric anastomosis function at 3, 6, 12 and 24 months, showing no significant complications. LA-DJI is a promising technique for the treatment of morbid obesity with a low risk of complication. Further clinical experience with LA-DJI is needed in a randomized study with a longer follow-up to assess its efficacy and safety. Follow American Idol Hi all! I posted my audition video below. I auditioned for American Idol on March 14th but didn't hear anything back until yesterday. I
