UPDATE: Crash Count has confirmed that this is indeed a new planet. Looks like the folks at Halo Waypoint have been alerted as well. Surely a new planet cannot mean anything good for the Covenant, and with The Sangheili ""Birtright"" being released, they may have a new set of Covenant with the arrival of the Forerunners. It is understandable that the UNSC would want to keep a close eye on what the Covenant are up to as they continue to awaken. You know, if there was a way to integrate it into the story, it would be amazing. Or, we could just make it an Easter Egg. Just like in Halo 2 when there was a holotape in the Guardian headquarters about the Alliance setting off a Pulsar Cannon and blowing a hole in the planet's crust. The only problem is that it would have to be all of these. The whole story arc of this game would be a Matrix. At least, that's what the author of the piece suggests. Two things. First, Chief on the deck of the Forward Unto Dawn at the end of Halo 3 as the credits are rolling. It was a beautiful shot, and really stood out for me. I've been wondering for a while whether the Covenant may find a way to resurrect their captain, Reach, given their extreme love for her; however, I didn't really think they'd be able to do it in Halo Wars. Dan is very interested in seeing what Cortana's piece of advice has to say about this. She doesn't have much to say in the way of information (yet!) but this is what she thinks might be going on: Advice: Watch what you're doing, Chief. It could get ugly. So we're assuming that the Covenant is planning some sort of big 'surprise' attack. Is that the right assumption? Will the Covenant actually return? And which faction will they join? An alliance of Elites, Elites + Marines, or just the Elites? When exactly will this attack occur? Will it be a surprise attack? Will it be halo-related? When Halo 3 releases, what will be the first thing you think about? :D

at the beginning of the

development process, halo 3 was intended to be more action-based, and more focused on the story than halo 2. as the development process continued, the developers sought to incorporate more gameplay elements, the most notable being the mission structure. [12] during the first two years, the development team

could change the structure of a level at any time, without needing to report the change to microsoft. however, after the release of halo 3, they had to account for the additional time and effort needed to incorporate such a change into a level. according to the developers, it took approximately eight

months to fully design the mission structure of halo 3. halo 3 was released for the xbox 360 on november 7, 2007, the same day that microsoft unveiled the xbox 360 at e3 2007. [51] it was released in japan on november 29, 2007, in europe on november 30, and in north america on december 6, 2007. [52]
