PK Correct Answer: CExplanation: The primary key property of a table entity is called the identity property. 1Z0-541 dumps That is, a new row is assigned the value of 1, and the identity value is always unique. An identity value is assigned by the database for every row that is inserted into a table. It is also incremented by the database when a new row is inserted. 1Z0-541 dumps It's a very useful key in the database, which means you can identify your data uniquely using this

System Requirements For Prep2Pass 1Z0-541 Exam:

1.5GB RAM 10GB free disk space OS: Windows XP, Vista, Windows 7, Windows 8 (64bit) Due to limited resources for Test server for rare fixes and changes, we request that all users play from the public test server rather than the live client. We will be updating the Public Test Server frequently to include changes that have not been rolled out to the Live Client. Finally, we understand that some of you will want to see how your vehicle behaves before rolling out a change to your real hardware. The most common methods
