

Where Can I Buy Synthra 6 VERIFIED

[Download File](#)

Syntha-6 comes with a macronutrient breakdown that you will likely not find elsewhere on the market today, for better or worse. Its 200-calorie serving is composed of 22g of protein, an inordinately high 15g of carbohydrate, and 6g of dietary fat to boot. It has almost 22 grams of high protein per scoop which you should take regularly. Additionally, the product has a good source of vitamins and minerals to fulfill your body's requirements. Consuming **syntha 6**, whey protein fulfills your stomach's exact need with this protein supplement every day.
