

Best Buy Support Twitter

So when a user reaches out to Google via Twitter, their support team often redirects them to their knowledge base. With an effective knowledge base in place, Google is able to promote self-service to grant customers instant access to information. A ready repository of FAQs helps Google to ease agent bandwidth and proactively address needs that their customers might have. The 24/7 assistance offered by a knowledge base empowers the customers with additional resources, taking care of issues they might run into in the future. When a user reaches out with a question or concern, the support agent who responds to the tweet includes a link to their own profile. This way, the customer feels comfortable reaching out to the tagged rep for any further assistance they might need and it holds the customer service rep accountable for the resolution provided which reflects well for the brand. Xbox keeps tabs on customer feedback and customer support responses through a separate account, @XboxSupport. They also keep tabs on customer feedback shared in the form of comments on their main Twitter handle @Xbox so they can ensure each customer feels heard by the brand. Having a separate support account allows minimum interference between their marketing and support efforts via tweets that go on their main Twitter account. They need not worry about losing followers on their main account due to a high tweet volume addressing concerns and grievances. It helps them improve agent productivity since their support team can focus their efforts solely on users reaching out directly. Instead of redirecting their customers to yet another channel or instructing them to send a direct message to a specific point of contact, the customer support agents take the time to look into customer concerns and provide the information they need. Best Buy supports programs that leverage technology to prepare underserved teens for the jobs of the future. This commitment is represented in programs such as Best Buy Teen Tech Centers, which are free afterschool programs that help teens build critical tech skills, and Geek Squad Academy. By the end of this year, 23 Best Buy Teen Tech Centers will be open nationwide. Most people expect a response from a brand within an hour, according to research by Lithium. This is supported by plenty of other research that suggests brands are still falling short of expectations in dozens of ways.
