The directories are available online or in print format. The text shows the Albanian phrase for phone directory (numratori telefonik i shqiperise) followed by the year of publication.

The phone directories for Albania are useful sources of information for people who want to contact someone in the country. They can also help researchers and historians who want to study the social and economic changes in Albania over the years. The directories can show how the population, the names, the professions and the locations of people have changed over time.

The phone directories for Albania are updated regularly to reflect the current situation in the country. However, some older directories may not be available online or may have missing or outdated information. Therefore, it is important to check the accuracy and reliability of the directories before using them. Some directories may also have different formats or layouts depending on the year and the publisher.

The phone directories for Albania are part of a larger collection of phone directories from different countries and regions around the world. These directories can be accessed through various websites or libraries that offer online or offline access. Some of these websites or libraries may require a subscription or a membership fee to access the directories. Some of them may also have additional features or services such as reverse lookup, caller ID, or search by name or number.

The phone directories for Albania are not only useful for communication purposes, but also for cultural and linguistic purposes. They can help people learn more about the Albanian language and culture, as well as the diversity and history of the country. The directories can show how the Albanian alphabet, spelling, pronunciation and grammar have evolved over the years. They can also show how the Albanian names and surnames have been influenced by different ethnic groups, religions and regions.

The phone directories for Albania are also valuable for business and tourism purposes. They can help people find potential customers, partners, suppliers or investors in the country. They can also help people plan their trips to Albania or find accommodation, transportation or entertainment options in the country. The directories can show how the Albanian economy, industry and infrastructure have developed over the years. They can also show how the Albanian attractions, landmarks and festivals have attracted visitors from around the world.

The phone directories for Albania are examples of how technology and information can connect people across borders and cultures. They can help people communicate, collaborate and learn from each other in a globalized world. They can also help people appreciate and respect the diversity and

uniqueness of each country and region. The directories can show how the Albanian people have contributed to the world in various fields and domains. They can also show how the Albanian people have faced and overcome various challenges and difficulties in their history.
