

# PROMOB 5 PLUS.rar

## How to Download and Install Promob Plus 2018

Promob Plus is a software for designing and selling furniture and environments, with features that adapt to your needs. It allows you to create projects, budgets, documentation, rendering and online management. In this article, you will learn how to download and install Promob Plus 2018 on your computer.

### Step 1: Download Promob Plus 2018

To download Promob Plus 2018, you need to have a valid license and access to the Promob Portal. If you don't have a license, you can request a trial version [here](#). If you already have a license, follow these steps:

1. Access the Promob Portal with your login and password.
2. Click on Downloads and select Promob Plus 2018.
3. Choose the edition that matches your license: Professional, Cut Pro or Real Scene.
4. Click on Download and save the file PROMOB 5 PLUS.rar on your computer.

### Step 2: Extract Promob Plus 2018

To extract Promob Plus 2018, you need to have a program that can handle .rar files, such as WinRAR or 7-Zip. If you don't have one, you can download it [here](#). After installing the program, follow these steps:

1. Right-click on the file PROMOB 5 PLUS.rar and select Extract Here or Extract to PROMOB 5 PLUS.
2. Wait for the extraction process to finish. You should see a folder called PROMOB 5 PLUS with several files inside.

## Step 3: Install Promob Plus 2018

To install Promob Plus 2018, you need to run the setup file and follow the instructions on the screen. Before installing, make sure you have enough disk space and that your system meets the minimum requirements. You can check them here<sup>[^2^]</sup>. After verifying these conditions, follow these steps:

1. Open the folder PROMOB 5 PLUS and double-click on the file Setup.exe.
2. Select your language and click Next.
3. Read and accept the terms of the license agreement and click Next.
4. Choose the destination folder where you want to install Promob Plus 2018 and click Next.
5. Select the components that you want to install and click Next.
6. Wait for the installation process to finish. You may need to restart your computer after the installation.
7. Launch Promob Plus 2018 from your desktop or start menu and activate it with your license key.

## Congratulations! You have successfully installed Promob Plus 2018 on your computer.

You can now start creating and selling amazing furniture and environments with Promob Plus 2018. If you need any help or support, you can contact us here<sup>[^2^]</sup>. We hope you enjoy using our software!

## How to Use Promob Plus 2018

Promob Plus 2018 is a powerful and intuitive software that allows you to create and sell furniture and environments in 3D. With Promob Plus 2018, you can:

- Create custom projects with a variety of modules, materials, colors and accessories.
- Generate realistic images and videos with the Real Scene feature.
- Optimize the cutting and assembly of your furniture with the Cut Pro feature.
- Manage your projects online with the Promob Connect feature.
- Export your projects to other formats, such as PDF, DWG, DXF and SKP.

In this section, you will learn the basics of using Promob Plus 2018, such as how to start a new project, how to insert and edit modules, how to apply materials and colors, how to render and export your project, and how to access the online services.

### Starting a New Project

To start a new project in Promob Plus 2018, follow these steps:

1. Launch Promob Plus 2018 from your desktop or start menu.
2. Click on File and select New Project.
3. Enter a name for your project and click OK.
4. Select the type of environment that you want to create: kitchen, bedroom, living room, bathroom or office. You can also choose a custom environment or an empty environment.
5. Select the dimensions of your environment and click OK. You can also adjust the dimensions later by clicking on Edit and selecting Environment Dimensions.
6. You will see a 3D view of your environment on the right side of the screen and a 2D view on

the left side. You can switch between the views by clicking on the icons at the bottom of the screen. You can also zoom in and out, rotate and pan the views by using your mouse or keyboard.

## Inserting and Editing Modules

To insert and edit modules in your project, follow these steps:

1. Click on Insert and select Modules. You will see a list of categories on the left side of the screen, such as cabinets, shelves, tables, chairs, etc. You can also search for a specific module by typing its name in the search box.
2. Select a category and then select a module that you want to insert. You will see a preview of the module on the right side of the screen. You can also see the dimensions and properties of the module at the bottom of the screen.
3. Drag and drop the module into your environment. You can also use the arrow keys to move it or the plus and minus keys to resize it. You can also snap it to other modules or walls by using the magnetic points that appear when you hover over them.
4. To edit a module, click on it to select it. You will see a toolbar at the top of the screen with various options, such as move, rotate, copy, delete, etc. You can also right-click on the module to access more options, such as edit dimensions, edit properties, edit materials, etc.
5. To insert more modules, repeat steps 2 to 4 until you are satisfied with your project.

## Applying Materials and Colors

To apply materials and colors to your modules or walls, follow these steps:

1. Click on Insert and select Materials. You will see a list of categories on the left side of the screen, such as wood, metal, glass, fabric, etc. You can also search for a specific material by typing its name in the search box.
2. Select a category and then select a material that you want to apply. You will see a preview of the material on the right side of the screen. You can also see the properties of the material at the bottom of the screen.
3. Drag and drop the material onto a module or wall that you want to apply it to. You can also use the paint bucket tool to apply it to multiple modules or walls at once.
4. To change the color of a material, click on it to select it. You will see a color palette at the bottom of the screen. You can choose a color from the palette or use the color picker tool to select a color from anywhere on your screen.
5. To apply more materials or colors, repeat steps 2 to 4 until you are satisfied with
