# How to Install and Use Autodesk AutoCAD Electrical 2018 [32-64Bit]- Full Version

Autodesk AutoCAD Electrical 2018 is a comprehensive software that allows engineers to design electrical circuits interactively, focusing on automation to improve productivity without compromising innovation. It has a library of 65,000+ intelligent electrical symbols, automatic numbering of wires and component tags, automatic generation and updating of multiple customized reports, support for electrical standards, SQL catalog support, and more.

In this article, we will show you how to install and use Autodesk AutoCAD Electrical 2018 [32-64Bit]- Full Version on your computer. You will need a compatible operating system, a display adapter with True Color capabilities and DirectX 9 or higher, at least 4 GB of RAM and 12 GB of disk space, and an internet connection for downloading and activating the software.

## Step 1: Download Autodesk AutoCAD Electrical 2018 [32-64Bit]- Full Version

You can download the software from the official website of Autodesk or from a trusted third-party source. Make sure you choose the correct version for your operating system (32-bit or 64-bit) and language. The file size is about 6.5 GB, so it may take some time to download depending on your internet speed.

## Step 2: Install Autodesk AutoCAD Electrical 2018 [32-64Bit]- Full Version

After downloading the software, double-click on the setup file to start the installation process. Follow the instructions on the screen to select the installation options, accept the license agreement, and enter your serial number and product key. You can find these information in your Autodesk account or in the email confirmation you received after purchasing the software. The installation may take several minutes to complete.

## Step 3: Activate Autodesk AutoCAD Electrical 2018 [32-64Bit]- Full Version

After installing the software, you need to activate it before you can use it. You can do this online or offline, depending on your preference. To activate online, you need to sign in with your Autodesk ID and password. To activate offline, you need to request an activation code from Autodesk using another computer with internet access. You can find more details on how to activate your software here:
